

## **BMR K1200LT FlatBed (Comfort Seat Edition) Installation**

### *Contents of Package:*

- 1 x Flatbed Luggage Rack, 2 x FlatBed mounting brackets, 2 x wide flange Allen mounting bracket bolts.
- 4 x thumbscrews (located on Flatbed)

**Ensure the motorcycle is placed on the center stand. Read and understand instructions before you begin installation.**

**Tools required for installation:** #30 Torx screw driver or #5 Allen hex key, wire cutters, chisel or Dremel tool.

**Raise Pilot seat. Disconnect passenger heated seat plug. Remove 2 seat screws, set passenger seat aside.**

With T30 driver, or #5 Allen key  
Remove 2 screws left and right

With wire cutter, snip away molded  
plastic from side-case mount supports.

With chisel or Dremel tool, clear away  
excess plastic to flatten surface.

Install L&R mounting brackets  
Using the 2 wide flange Allen bolts

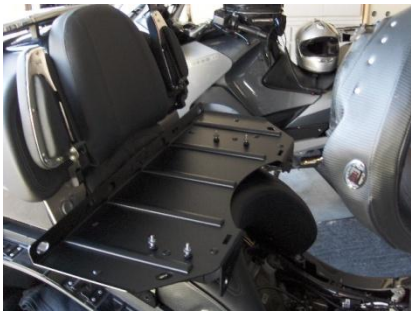

Make sure bracket is aligned with  
the outside edge of plastic, here.

Re-fit passenger seat. Replace  
heater plug and 2 screws.

**Place FlatBed luggage rack over seat fitting vertical legs inside brackets.**

**Loosely screw front thumbscrews**

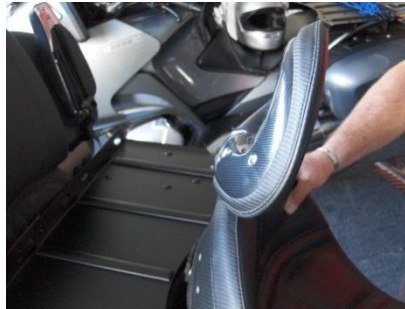

**Loosely screw back thumbscrews**

**By hand, tighten all 4 Thumbscrews**

**Drop pilot seat into place**

**Backrests fit nicely with our FlatBed**

**6 cubic feet load capacity!**

**5 Rubber ribs prevent load shifting.**

**Load and go!**

BMR Products ask that you load your luggage in a safe manner. We have designed 16 ports on every FlatBed luggage rack to help you secure your cargo. We recommend and sell ROK Straps, the motorcycle tie down as our choice to help you ride safe! Remember to keep your load as low as possible and to sort heavier items at the bottom and lighter cargo to the top. Strap your cargo front to back and crisscross so if you have to make a hard stop you will not be wearing all your cargo!

“Ride safe”
